Devantol Soft
Pre-spotting agent for brushing on delicate textiles which are cleaned in perc or hydrocarbon solvents

PROPERTIES:
• is gentle to dyes and prints on delicate fabrics
• removes effectively pigment soil, alimentary and protein stains
• prevents local greyings and can be rinsed rimless in all solvents usual in the trade
• especially suited for brushing on delicate garments

APPLICATION:
Devantol Soft can not be mixed with water. For delicate garments made of silk, acetate and viscose carry out a hem test before starting the general treatment. Brush or spray Devantol Soft undiluted on delicate garments without applying any strong mechanical pressure. Place the treated garments in the drycleaning machine after allowing Devantol Soft to act for approx. 10 minutes.

TECHNICAL DATA:
Density 20 °C (68 °F) 0.84 g/ml
pH-value 7.0 - 8.0
Ionogenity anionic

HINTS:
Storage
Devantol Soft is not sensitive to frost but during longer storage below 10 °C (50 °F) it becomes viscous even though the product can be applied without any loss of quality. Keep container tightly closed. The product can be stored for at least 24 months in its original sealed packing.
