Duftstoff Tropical
Perfume for all solvents used in dry cleaning

PROPERTIES:

- clear, yellowish liquid
- pleasant, fresh odour which sticks well on all kinds of fibres, masks and neutralizes unpleasant odours
- provides the cleaning shop with a pleasant fragrance
- usually miscible with all dry cleaning detergents and retexturing agents, liquid washing agents and softeners. If necessary, the compatibility should be tested.

APPLICATION:

Duftstoff Tropical is added to the cleaning bath - or in case of several baths - to the last bath before drying.

Dosage
Approx. 0.5 ml Duftstoff Tropical per litre liquor (0.06 fl.oz/gal)

The quantity should not be more than 3 ml per kg textiles to be cleaned (0.46 fl.oz/10 lbs)

Covering unpleasant odours on cleaned textiles - caused by the solvent - with perfume can only be a temporary solution. The reason for the unpleasant odour should be found out quickly to eliminate the problem.

TECHNICAL DATA:

Density 20 °C (68 °F) 1.02 g/ml
pH-value 7.0 - 8.5

HINTS:

Storage
Duftstoff Tropical should be stored tightly closed, dry and not too warm. The product can be stored for at least 12 months in its original sealed packing.

For industrial use only. This information sheet is for guidance only. The data set out here are based on the current status of our knowledge and experience. They do not in any way absolve users of the need to carry out their own checks and tests for suitability of the products for the intended processes and purposes. The data in this information sheet do not represent assurance of properties and stability of the products we are to supply. Subject to technical modifications within reason. The current version of the EU Material Safety Data Sheet must also be observed.
