Lavenium TP

Cleaning agent for use in spray-extraction

**PROPERTIES:**
- Pre-defoamed, surface active spray-extraction cleaning agent
- Excellent pigment removing and soil suspending power
- Free from optical brighteners
- Good solubility even in cold water
- Suited for all types of machine

**APPLICATION:**
Lavenium TP has been developed especially for the spray-extraction method to clean carpets and upholstery which are colour-fast and fast to wet-washing. Lavenium TP emulsifies and removes also oily and greasy soilings. Lavenium TP is pre-defoamed. Only when cleaning frequently shampooed carpets residues of shampoo can produce foam in the dirty tank. This foam can be removed immediately by FOAM-EX.

Add Lavenium TP to the water in the detergent tank of the cleaning machine. Generally 200 - 300 ml per 10 litre water are sufficient (256 - 384 fl.oz/10 gal). In case of very heavy soiling we recommend to increase the a.m. dosage slightly.

**TECHNICAL DATA:**
- Density 20 °C (68 °F) 1.03 g/ml
- pH-value (1 %) 8.5 - 9.5

**HINTS:**
Storage
Lavenium TP should be protected from freezing although it is fit for use again after thawing without any loss of quality. The product can be stored for at least 24 months in its original sealed packing.
