Lival Soft
Regreasing agent / softener for leather, furs, wool and silk

PROPERTIES:
- loosens the suede pile and provides a soft and supple feel
- shows excellent core fatting
- freshens colour and improves the gloss
- extremely kind to colours
- colourless, especially suited for the treatment of light leathers
- odourless, does not rancidify
- free from foreign solvents

APPLICATION:
In perchloroethylene and hydrocarbon solvents

For regreasing of suede in perchloroethylene 30 - 50 ml Lival Soft per litre solvent are applied (3.8 - 6.4 fl.oz/gal) and in hydrocarbon solvents 15 - 30 ml Lival Soft per litre solvent are applied (1.9 - 3.8 fl.oz/gal).

For smooth leather, furs and hides 20 ml Lival Soft per litre perchloroethylene (2.6 fl.oz/gal) and 10 ml Lival Soft per litre hydrocarbon solvents are used (1.3 fl.oz/gal). Leather items which were not dyed can be treated with a fluorocarbon resin impregnation e.g. SECASIT FSI, using the spraymatic of the machine. As regreasing agent treating textiles 0.5% Lival Soft referred to the weight of garments can be added to the last cleaning bath.

TECHNICAL DATA:
Density 20 °C (68 °F) 0.85 g/ml

HINTS:
Store cool and tightly closed. The product can be stored for at least 24 months in its original sealed packing.

For industrial use only. This information sheet is for guidance only. The data set out here are based on the current status of our knowledge and experience. They do not in any way absolve users of the need to carry out their own checks and tests for suitability of the products for the intended processes and purposes. The data in this information sheet do not represent assurance of properties and stability of the products we are to supply. Subject to technical modifications within reason. The current version of the EU Material Safety Data Sheet must also be observed.
