Lizerna Intensive
Low-temperature grease solvent, emulsifier and detergent booster

PROPERTIES:
- suitable for optimal removal of special soilings already at 30 °C (86 °F)
- allows cost savings in energy and time
- leads to outstanding laundering results, especially for textiles and garments from old people's and nursing homes, the food industry and work wear
- versatile applications as emulsifier, wetting agent and detergent booster in all laundry facilities

APPLICATION:
Lizerna Intensive can be added manually or through liquid dosing systems used in laundries.

As wetting agent:
0.2 - 1.5 ml/kg textiles (0.03 - 0.23 fl oz/10 lbs)

As grease solvent and detergent booster (work wear, kitchen laundry):
2 - 5 ml/kg textiles (0.31 - 0.77 fl oz/10 lbs)

As emulsifier for laundry with heavy pigment stains:
6 - 15 ml/kg textiles (0.92 - 2.30 fl oz/10 lbs)

TECHNICAL DATA:
Density 20 °C (68 °F) 1.00 g/ml
pH-value (1%) 4.2 - 5.0
COD (DIN ISO 15705) 1710 mgO2/ml
(chemical oxygen demand)

HINTS:
Storage
Store the product in original packaging only and protected against freezing. The product can be stored for at least 24 months in its original sealed packing.
