Oldopal Prefinish
Fibre protection and antistatic agent for the wet cleaning of textiles and leather

PROPERTIES:
- is absorbed substantively by wool and cellulose fibres
- the added odour absorbing agent cares for lasting freshness
- provides the finished textiles with volume and firmness
- binds residual moisture in the fibres
- reduces wrinkling
- retains ironing properties of the textiles
- is deposited on the scale structure of wool
- effective reduction of felting of wool
- improves the feel of suede leather
- biological decomposition confirmed by a survey acc. to EN ISO 9888/1999 of > 90%

APPLICATION:
Oldopal Prefinish is a special finishing agent for gentle washing of outerwear which can be subjected to wet treatment in washing machines.

- for textiles with a majority cellulose content of cotton, viscose and linen:
  20 ml/kg textiles (= 5 ml/l bath); 0.3 fl oz/lb (0.6 fl oz/gal)
- for textiles with a majority wool content:
  40 ml/kg textiles (= 10 ml/l); 0.6 fl oz/lb (1.2 fl oz/gal)
- liquor ratio 1:4 - 1:5

Application for the wet cleaning of leather:
For odour problems 40 ml/kg leather (0.6 fl oz/lb) has to be added to the 1st rinsing bath (liquor 1:3). Special treatment to improve the feel of suede leather, add 20 ml/kg (0.3 fl oz/lb) textiles to the 1st rinsing bath.
TECHNICAL DATA:

Density 20 °C (68 °F) 1.05 g/ml
pH-value (1%) 4.5 - 5.0

HINTS:

Storage
The product should be stored protected against frost although the solidified product is fit for use again after thawing without any loss of quality. The product can be stored for at least 24 months in its original sealed packing.
