Ozerna Diamond
Highly alkaline, liquid single-purpose detergent

PROPERTIES:
- registered as chemo-thermal laundry disinfection in combination with Lizerna Sept** (10 min. 60 °C, 1:4) at VAH (Association of Applied Hygiene)
- in combination with Lizerna Sept** (10 min. 60°C [140 °F], liquor ratio 1:4) registered according to § 18 IfSG at German Robert-Koch-Institute (ranges A + B)
- high washing effect at low dosage
- ideal for adverse water qualities (hardeners, heavy metals)
- foam regulated and phosphate-free
- gentle to fabrics (approved with laundry test swatches)
- efficient at temperature from 30 to 90°C (86°F -194°F)
- resource friendly

APPLICATION:
Ozerna Diamond is a high alkaline, single-purpose detergent with optical brightener. Due to its special surfactant framework it has excellent soil dissolving and fat removing properties.

DOSING RECOMMENDATION:

HINTS:

Storage
Store dry and protected from frost. After partial taking out close the packing unit tightly again. The product can be stored for at least 24 months in its original sealed packing.

The dosage of product has to be adapted to the degree of soiling and water hardness.

** Use biocides safely. Always read label and product information before use.
