Ozerna Liquid
Alkaline, liquid single-purpose detergent for heavily soiled textiles

PROPERTIES:

- excellent removal of oil, fat and soil stains
- presents an optimal greying protection in connection with a high pigment and soil-removing capacity
- achieves its full washing power even at adverse water qualities
- effective at temperatures from 30 °C - 90 °C (86 °F - 194 °F)

APPLICATION:

Ozerna Liquid is an alkaline, liquid single-purpose detergent for heavily soiled cotton textiles and blended fabrics. As a basis product it can be combined ideally with enzymes and other washing auxiliaries to meet different requirements.

The degree of hardness or the water hardness is known by your water supplier.

TECHNICAL DATA:

- Density: 1.16 g/ml
- pH-value (1%): 12.0 - 13.0
- COD (DIN ISO 15705): 280 mgO2/ml

The data in this information sheet do not represent assurance of properties and stability of the products we are to supply. Subject to technical modifications within reason. The current version of the EU Material Safety Data Sheet must also be observed.
**HINTS:**

**Storage**
Store dry and protected from frost. After partial taking out close the packing unit tightly again. The product can be stored for at least 24 months in its original sealed packing.

The dosage of product has to be adapted to the degree of soiling and water hardness.
