For industrial use only. This information sheet is for guidance only. The data set out here are based on the current status of our knowledge and experience. They do not in any way absolve users of the need to carry out their own checks and tests for suitability of the products for the intended processes and purposes. The data in this information sheet do not represent assurance of properties and stability of the products we are to supply. Subject to technical modifications within reason. The current version of the EU Material Safety Data Sheet must also be observed.
HINTS:

Storage
Protect from direct sunlight. Store in cool, dark rooms, at an ideal temperature of -5 to +30 °C (-41 to +86 °F). Do not allow contact of the concentrated product with organic or other concentrated cleaning and disinfecting agents. Due to safety regulations we recommend to apply the product in original packings only. Originally closed packings are applicable for 12 months. After that period the effect decreases slowly.

**Use biocides safely. Always read label and product information before use.
